RE: Carbon Filter/PM 990

Dear Bob:

Enclosed is the application with revisions by Dr. Rainer as indicated. Also enclosed is the December 2, 1981, draft showing your additions and deletions which is returned as requested. Note that I have changed the title of the application with the concurrence of Dr. Rainer as indicated on the draft.

After you have made the changes indicated, the application should be in condition for filing. However, before we draft the papers necessary for execution, please forward a copy of the application to Mr. Carl Adkins in our New York office for his review prior to filing. He will then contact me with any suggestions he may have for changes prior to filing.

Very truly yours,

Nelson A. Blish
